

TOP 10 *Holiday Shopping* CYBER SAFETY TIPS

FROM
MAKING SENSE OF SECURITY

1

Always use HTTPS secured websites with the lock

2

Never enter bank or credit card info without the secured website.

3

Never store your credit card info on any shopping site.

4

Never store your actual physical address in any shopping site.

5

Delete cookies after shopping online.

6

Use a private single window when shopping online. Close window promptly after completing purchase.

7

Use a prepaid debit card instead when shopping online. The limited amount prevents losing too much money if compromised.

8

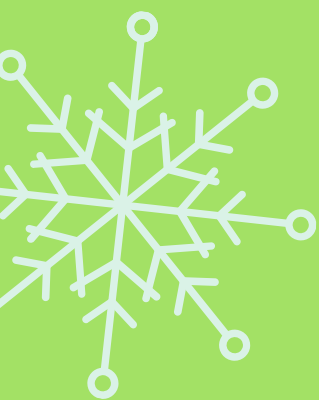

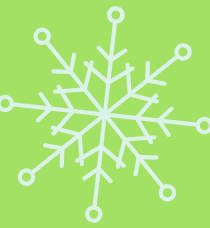

Pick up purchases in the store if unable to be home for deliver. This disables opportunities for “Porch Pirates”.

9

Use a separate email specifically for shopping websites. This can be your shopping junk mail account. Do not mingle financial emails with others.

10

Do not post your gift shopping online where “virtual friends” can see what you have. What you post can be screenshot and shared with others you won’t know.
